

I Siciliani: (The Sicilians)

Lucca, Tuscany, 2004. The sudden noise and heat of the explosion caught him by surprise. The force of the blast threw him back about five meters. As he flew through the air, it felt like it was happening in slow motion. He clearly saw his car, his beloved BMW 320i, leave the ground and burst into flames. He wondered whether his insurance would cover it. Aw shit, were the only words that came from his mouth, involuntarily. He landed hard. He just lay there, not knowing what to do or if he could even move. Someone called an ambulance and when the paramedics showed up to assist him to the vehicle, he was happy he could almost walk, without pain, except for the sting on the small of his back and the bump on his head. The ambulance driver called the hospital and explained that they wanted to bring him in because they didnt like his color. It indicated he was in shock. He was about to protest. Then he lost consciousness.
