

Willing Patient: The Complete Bimbo Therapy Series (A Bimbo Aphrodisiac Menage and Medical Exam Series)

Fresh out of college, Kelly Munson has managed to land an internship at a prestigious behavioral research institute. Resigned to making coffee and working the copier, she's just thrilled to be in the same building as the famous and handsome researcher Dr. James Vellano. Little does she realize just how intimately his next project will involve her. When a chance encounter catches his eye, she quickly becomes the center of his newest project. His studies of sexual pleasure have led him to design a program to create the ideal bimbo: voluptuous, horny, and desperate to please. Now he has the perfect test subject, and he's prepared to work intimately and untiringly with her until he has shaped her into his perfect sexual plaything, though of course he'll be willing to share. Reader Advisory: This story is for mature audiences only and features intensely erotic situations, bimbofication, the use of potent aphrodisiacs, multiple partners, medical examination, a dominant older man and the increasingly submissive, fertile young subject of his experiments. All characters are 18 or older. *Willing Patient: The Complete Bimbo Therapy Series* follows Kelly's transformation into a willing sex toy over the course of the three-part series: *Transforming the Intern*, *The Doctor's Presentation*, and *Passing Around the Doctor's Pet*, now combined in a single volume. Excerpt: I lived in a rhythmic haze, sometimes completely caught up in the changes I was experiencing and at other times regaining enough of a clear head to understand what was happening. Gradually I began to recognize that this wasn't about unleashing some empowering sense of sexuality. It was about making me into the perfect bimbo, a little sex kitten dwelling in the world of sensual pleasure. At first the thought alarmed me, but as the treatments went on, the more the thought excited me. I began to consciously work towards the little things that might please Dr. Vellano

and bring me in line with what he wanted me to be. I awaited new measurements with breathless excitement. When my first reaction to any request wasn't immediate and eager obedience, I stumbled over myself to apologize and beg his forgiveness. I was starting to have trouble with complicated ideas, and even that I began to appreciate. The complicated ideas were all just distractions anyways. The simple things were the important things. Pleasure. Obedience. Keeping myself sexy and available. When anything that didn't have to do with those things came up, men like Dr. Vellano were happy to worry about them for me in exchange for a little of those things that I did understand. But best of all was the effect my changes had on them. That was where I took my greatest satisfaction. When I had first wandered in through their doors they had looked on me like a nice piece of clay, something they could do something with but not terribly interesting in my own right. But now I often saw their admiring glances. I saw the way they responded to my body and the little things I did to please them. It was Dr. Vellano in particular that I focused on. I knew he wanted me, and that he was only managing to restrain himself because he didn't want to interfere with the experiment in its early stages. But I didn't care about the experiment. I cared about him, and I knew I could make him happy if he let me. So I became a bit of a bad girl. I watched for the little things I did that most affected him and did them at every opportunity. I came and sat on his lap whenever he was too distracted to immediately shoo me away. Once or twice I managed to brush his groin with a thigh or a hand and could tell I made him hard. He had created his perfect sex toy and now I took it upon myself to be sure he got to play with me before his sense of responsibility left us both unhappy.
